dedication . . .

We must take life
as we find it and improve it
as we can.
We can improve it
only if we have
a vision of things
worth working for.
Peace is such a vision.

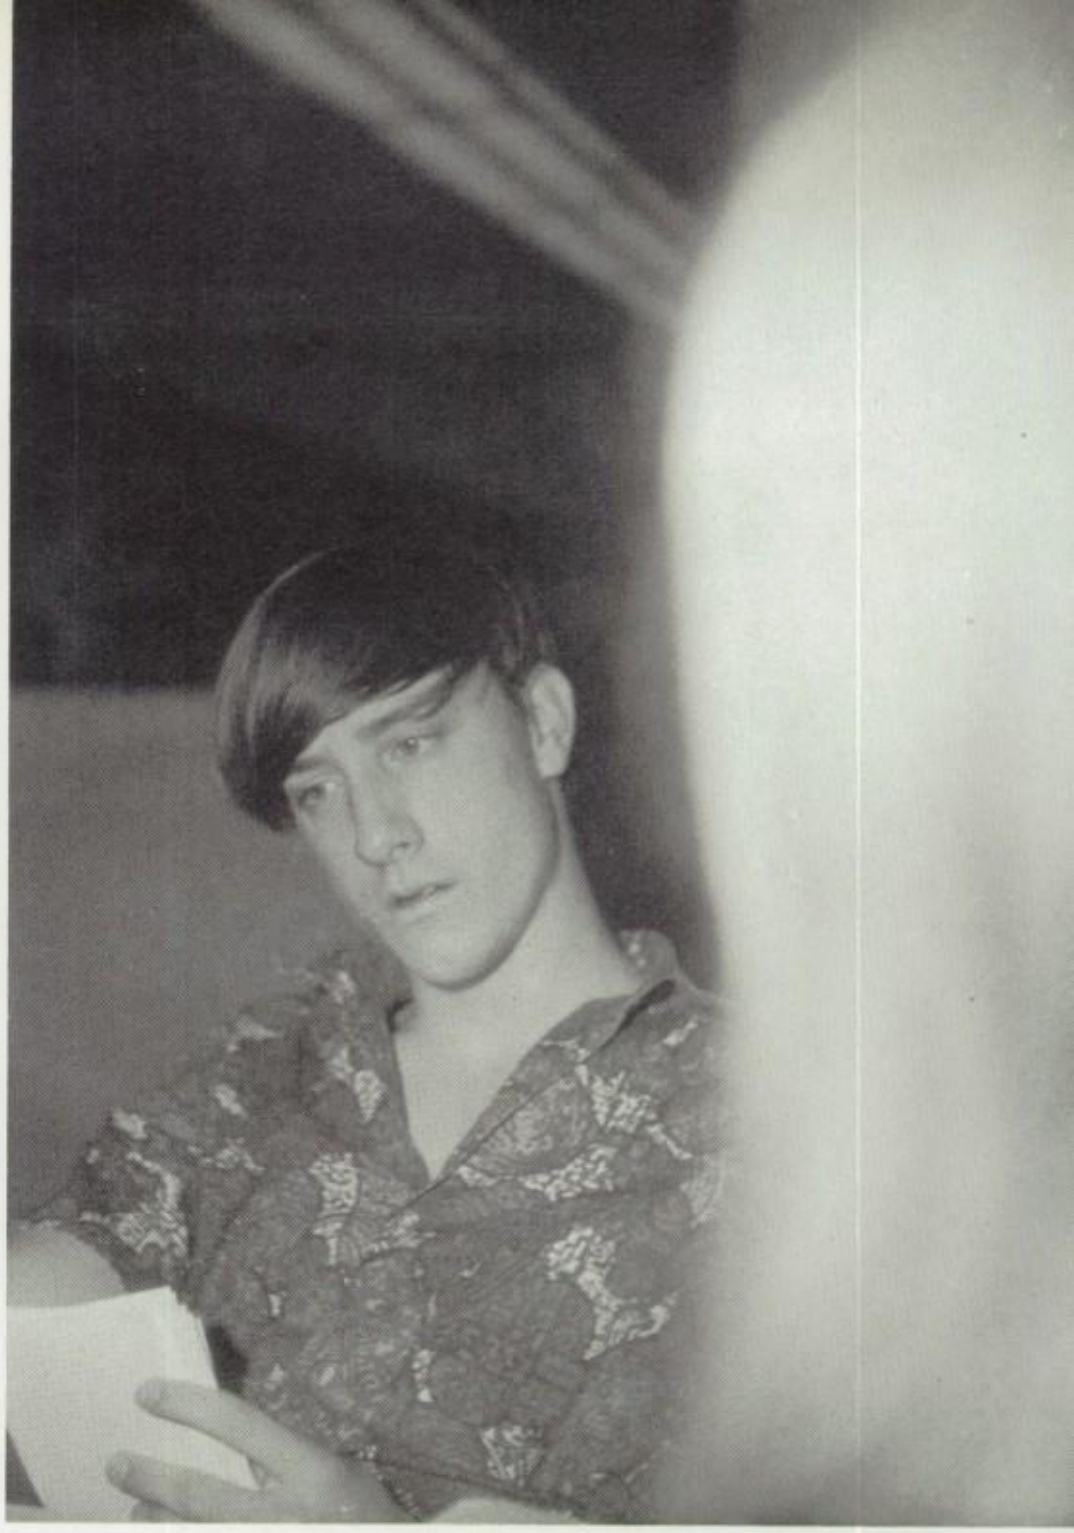
"youth is life's longing for itself. . ."

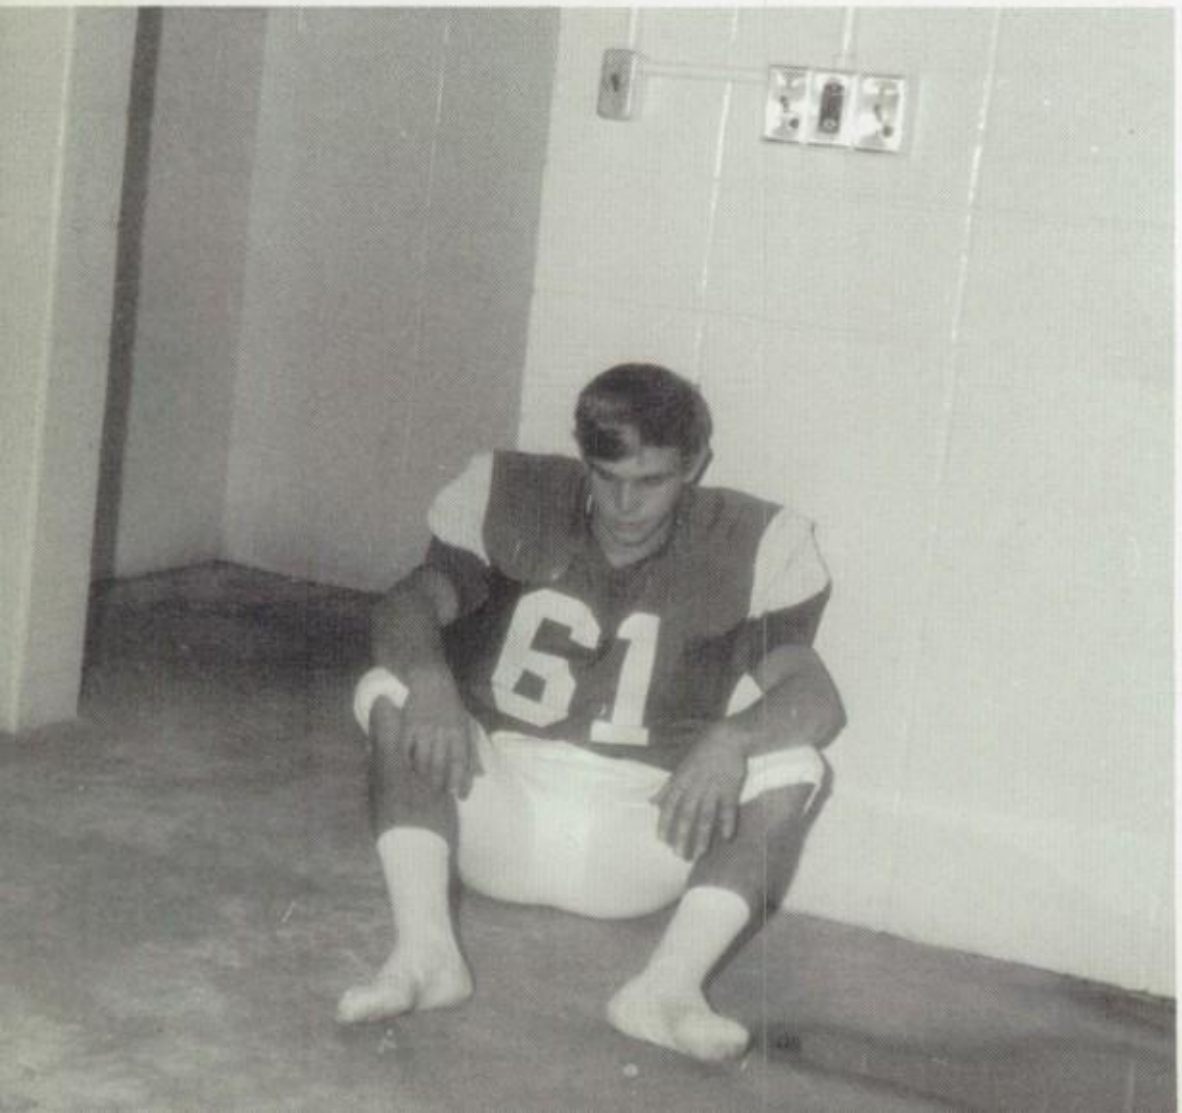
Gibran

Walk through life
beautiful more than anything
stand in the sunlight
walk through life. . .

. . . love all things
that make you strong,
be lovers, be anything
for all the people of
earth . . .

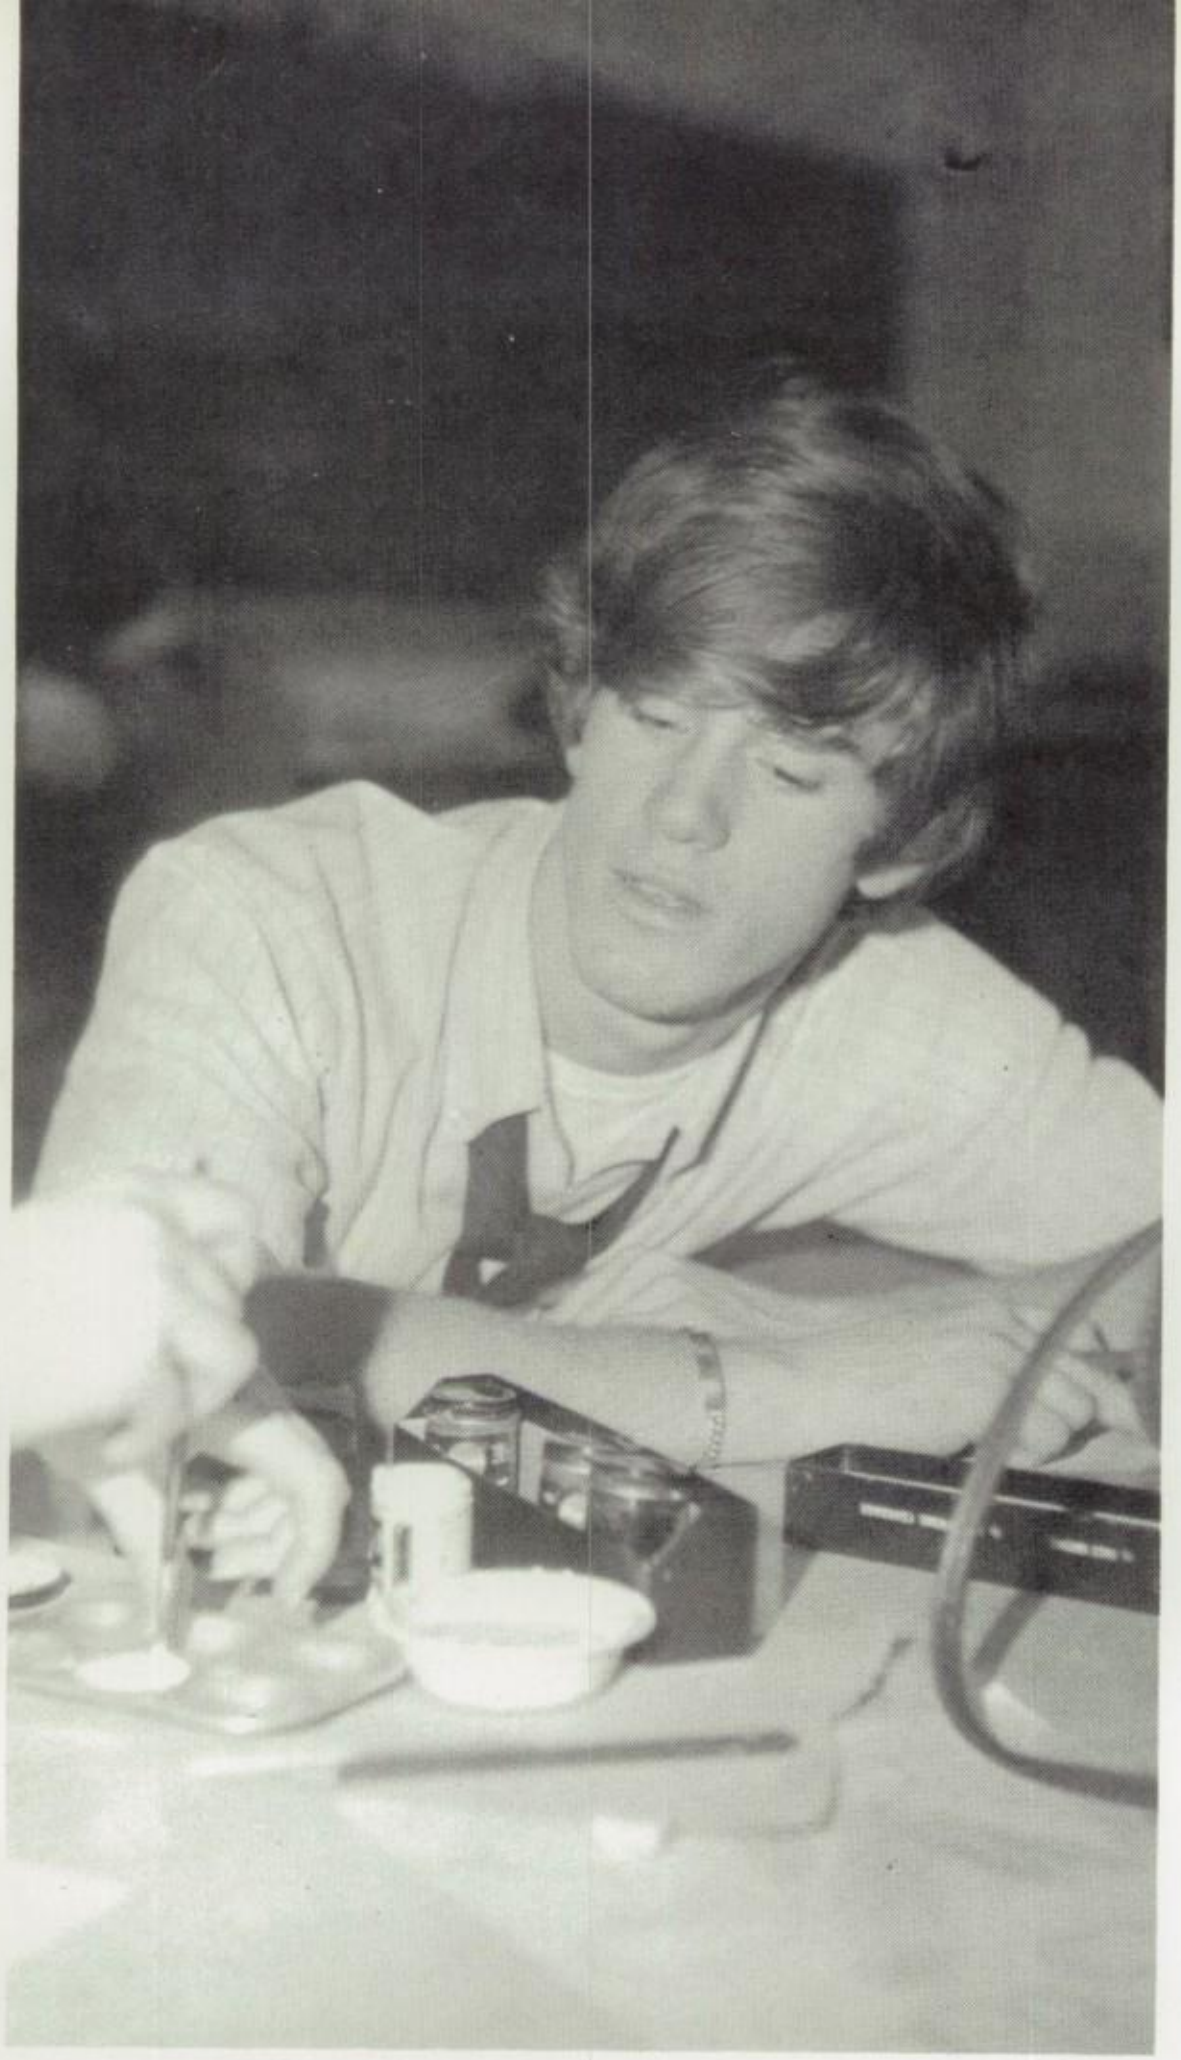
You have brothers
you love each other, change up
and look at the world
now . . .



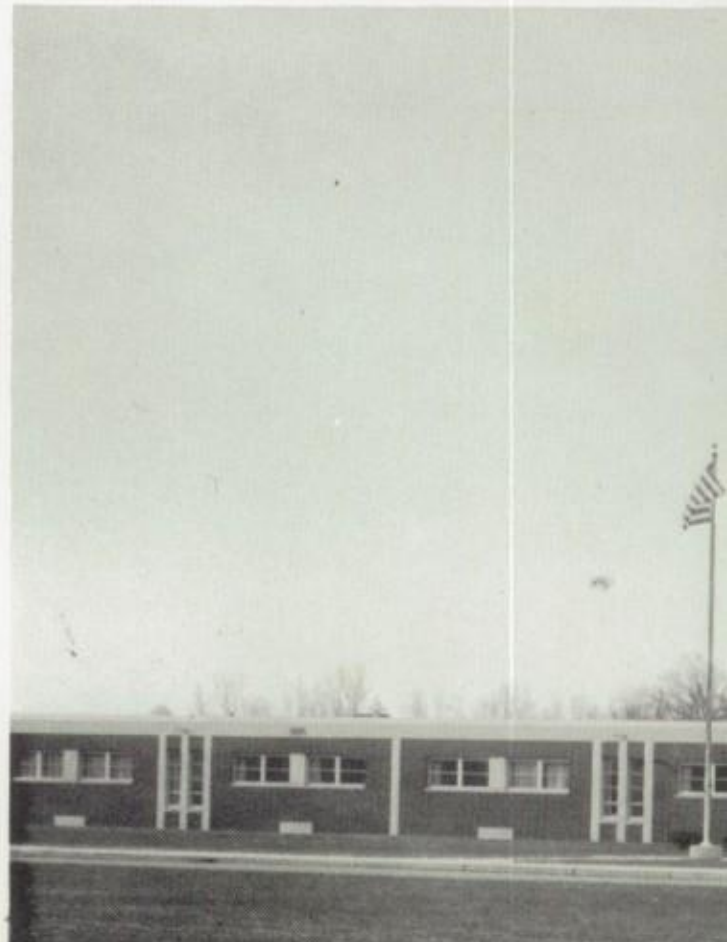


. . . it's
ours, take it slow
we've a long time,

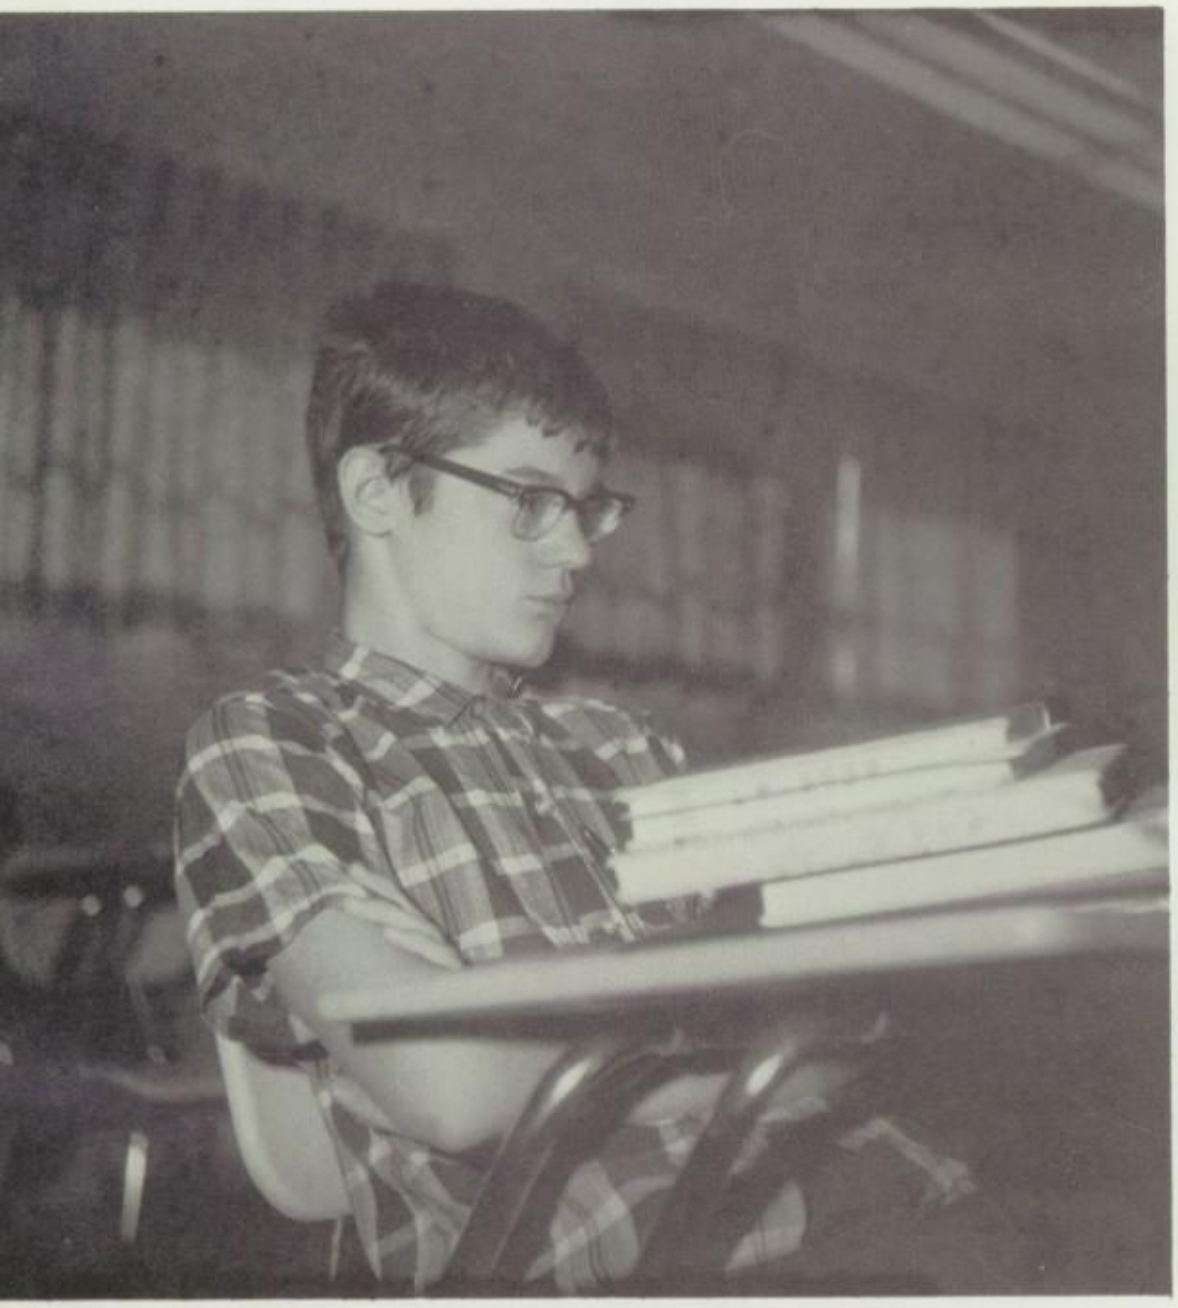
. . .a long way to go,



We have
each other, and the
world
don't be sorry
walk on out through sunlight life, and know
we're on the go . . .



. . .for love to open our lives



to walk
tasting the sunshine
of life.

For what is it to die
but to stand naked in the wind
and to melt in the sun?
And what is it to cease breathing, but
to free the breath from its restless
tides, that it may rise and
expand and seek God
unencumbered?

Only when you drink from the river
of silence shall you indeed sing.
And when you have reached
the mountain top, then you
shall begin to climb.
And when the earth shall claim
your limbs, then shall you
truly dance.

Education . . . our greatest CHALLENGE . . .

There is no challenge to our modern society and no opportunity greater than educating our youth.

The old adage that says, "True intelligence is the power to adapt," has never held more meaning.

We have had and will continue to have a knowledge explosion. Four times as much is known today as was known in 1935.

U. S. Department of Labor studies point out that an individual's asset of experience increasingly will carry less weight than his level of education. Many occupations of the future are not now even in existence.

The only sound educational target for such a future is to plan for these occupations which do not yet exist. Students must be able to learn how to learn and to apply themselves to new conditions as they arise.

This is no vocational assignment alone. Our nation needs intellectual as well as material growth. Our nation needs citizens as much as workers.

Owens-Illinois is but one of the hundreds of American business organizations concerned by this challenge and actively engaged in specific ways and means to meet it.

WALSWORTH

Whoso would be a man must be a nonconformist. He who would gather immortal palms must not be hindered by the name of goodness, but must explore if it be goodness. Nothing is at last sacred but the integrity of your own mind.
